

## **Login Now and Then 3**

### **The semantics and pragmatics of logical constants**

Brussels, February 5-6, 2015

Organised by CRISSP

Conference website: [www.crisp.be/lnat3](http://www.crisp.be/lnat3)

Conference e-mail: [lnat3@crisp.be](mailto:lnat3@crisp.be)

The third Logic Now and Then (LNAT3) Conference will be devoted to the relationship between the semantics and pragmatics of logical constants (connectives, quantifiers, modal operators). Its aim is to critically assess and contribute to semantic and pragmatic theories developed for constructions containing such operators in natural language. On the one hand, we hope to bring together cutting edge contributions to debates that are currently in full swing, but at the same time, we very much invite contributions of a more historical nature, which shed light on antecedents of current views and issues, thereby placing them in a wider diachronic perspective. In short, the semantics and pragmatics of logical constants now and then.

Invited speakers:

- Rick Nouwen (Utrecht University)
- Daniel Rothschild (University College London)
- Johan van der Auwera (University of Antwerp)

Abstracts should be in PDF-format, anonymous, at most one page long, and should include any example sentences. A second page may be added for bibliographical references only. Please submit abstracts through EasyChair, using the following link:

<https://easychair.org/conferences/?conf=lnat3>

Authors may submit at most one individual and one co-authored abstract.

The abstract submission deadline is **1 December 2014**, midnight, Brussels time. Notification of acceptance will be on December 19, 2014.
